INTRODUCTION and GENERAL INDEX

R. L. POLK & CO., publishers of the Chico and Oroville City Directories, as well as more than 750 other city, county, state and national directories, present to subscribers and the general public, this, the 1956 edition of the Chico and Oroville Directory, which also includes a Directory of the rural free delivery box holders on routes which are pivotal from the Chico and Oroville Post Offices.

Confidence in the continued growth of Chico and vicinity's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Chico, Oroville and vicinity to the world.

The enviable place occupied by R. L. POLK & CO.'S Directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Chico and Oroville Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Chico and Oroville, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status,

occupation and address of each adult resident of Chico and vicinity, and the name, official personnel, nature and address of each firm and corporation. There is a similar list for Oroville.

III. THE CHICO DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers as supplied to us on canvass are shown opposite the name. There is a similar section for Oroville.

IV. THE RURAL ROUTE DIRECTORY, is the fourth major department, printed on white paper, includes the box holders on the rural routes served by the Chico Post Office. There is a similar list for Oroville.

V. THE NUMERICAL TELEPHONE DIRECTORY for Chico and Oroville is the fifth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To brodcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisments of Chico, Oroville and vicinity, for business men, everywhere, realize that the City Directory represents a community as it really is.

The Chico Directory Library

Through the courtesy of the publishers of the Chico and Oroville Directory, a Directory Library is maintained in the offices of the Chico Chamber of Commerce for free reference by the general public. This is one of the more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Do your employers furnish you with the latest edition of the City Directory

?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight!

Out of Mind!

Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

▼

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

...About Your Car Owner Lists

Whatever information an auto owner puts on his license application appears on the new Polk official car owner registration list, now available to you. Every name on a Polk car owner list is "cleaned" ahead of time. Only names of persons to whom mail can be delivered are compiled for you. Polk Car Owner Lists are not "loaded" with extra names that would waste your time and money in sending out mail, or in making personal calls.

Success or failure of any direct mail advertising program depends on your keeping that list up to date.

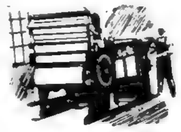
CITY DIRECTORY CLASSIFIED BUSINESS SECTION

The Services of R. L. Polk & Co.

DIRECTORY PUBLISHERS FOR 750 CITIES

Polk City Directories have been the accepted basis for population listings in hundreds of American cities. These directories, compiled regularly, provide detailed information concerning the name, address, occupation and other important information about all adult residents of a city. In addition to local circulation, Polk cooperates in the maintenance of City Directory Reference Libraries in cities throughout the U.S. and Canada. *The priceless ingredient of a City Directory is the accuracy with which it is made; accuracy is the product of experience; Polk has been compiling City Directories since 1870.*

DIRECT MAIL ADVERTISING FOR LEADING INDUSTRIES



Polk's Direct Mail Advertising Division—one of the world's largest—specializes in high-quality, productive advertising. America's largest industries are Polk's long-time clients. Polk's direct mail advertising is *complete* . . . consultation, research, testing, creating, printing, producing, and distributing to selected prospects. Polk's production plants are geared to handle more than two million mailings daily. Included in its production facilities is the world's largest battery of imprinting presses and the world's largest installation of automatic typewriters. *Polk's direct mail advertising services are dedicated to helping business men produce increased sales volume.*

NATIONAL MAILING LISTS AND MAILING SERVICES

The people of America are in Polk's list files . . . all businesses, trades, professions, and vocations . . . obtained through personal canvass. Polk also lists all automobile and commercial vehicle owners—by make of car or truck, by model, by year, by state, county and city. Mailing lists of one kind or another, totaling more than 60,000,000 names a year, are compiled for Polk clients. Facilities for multigraphing, typing, letter-press or offset printing, questionnaires or letters, and complete addressing, imprinting and mailing services are available. *Polk can reach the right prospects DIRECT, with the right kind of message.*

AUTOMOBILE AND BUSINESS STATISTICAL HEADQUARTERS

Since 1922 Polk has been statistician for the automotive industry. Polk total count of passenger cars, trucks, motorcycles and trailers by make, by year model, is the only annual inventory of the country's automotive equipment. Polk's new car passenger and truck reports furnish manufacturers and dealers with a monthly recapitulation of all sales for each territory . . . The first business census of the U.S. was a Polk project, giving statistics covering the number of manufacturers, wholesalers and retailers for each state, county and town. *Using Polk statistical services American business is able to plan intelligently its production, distribution and sales.*

SURVEYS AND CONSUMER RESEARCH

Fast, accurate research surveys and analyses, based on experience gained through nation-wide home and business canvasses, are provided by the Polk Consumer Research Division.

POLK BANKER'S ENCYCLOPEDIA

Polk's semi-annual directory of the banks of the nation is the outstanding Directory in the banking field. Polk reports on the condition of the nation's banks, their officers and directors, including a detailed statement on each bank, as well as listing investment dealers, stock exchange members, insurance companies, and other general financial data.

Don't Contribute to Counterfeiters
KNOW YOUR MONEY!

Don't Be Fooled by Forgers
KNOW YOUR ENDORSERS!

The Government never redeems counterfeit money!

1. KNOW YOUR MONEY! Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. COMPARE a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT — *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.
Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

COLORED SEAL — *Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.
Genuine—Saw-tooth points around rim are even and sharp.

SERIAL NUMBERS — *Counterfeit*—Poorly printed, badly spaced, uneven in appearance.
Genuine—Figures firmly and evenly printed, well spaced.

PAPER — *Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.
Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. RUBBING a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. CONSULT an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or $7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

Don't Contribute to Counterfeiters
KNOW YOUR MONEY!

Don't Be Fooled by Forgers
KNOW YOUR ENDORSERS!

The Government never redeems counterfeit money!

1. KNOW YOUR MONEY! Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. COMPARE a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT — *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.

Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

COLORED SEAL — *Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.

Genuine—Saw-tooth points around rim are even and sharp.

SERIAL NUMBERS — *Counterfeit*—Poorly printed, badly spaced, uneven in appearance.

Genuine—Figures firmly and evenly printed, well spaced.

PAPER — *Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.

Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. RUBBING a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. CONSULT an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or $7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

POLK'S
CHICO
Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide
1956

Copyright, 1956, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ● following a householders's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants, but were unsuccessful. First, two personals calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore 1000 x 3½ x 305 = 1,067,500

Recreation—Municipal Auditorium, located in the center of the business district and available for all types of recreational functions. One theatre—air-conditioned; one Drive-in theatre; Four municipal parks, most extensive of which is "Bedrock," along the Feather River with life guard service and bath house. Four athletic fields, night baseball games in summer; Little League; Feather River Park and Parkways Recreation District with Director; municipal swimming pool; municipal tennis courts; municipal Scout building; Oroville has one of the finest smooth water motor-boat courses in Northern California. 600 miles of trout fishing streams empty into the Feather River, forming the North and West boundaries of Oroville. Bidwell Bar State Park—9 miles east of Oroville with picnic grounds, swimming, bathhouses. Table Mt. Golf Course; Feather Falls with its drop of 640 feet, second highest falls in the state, within 20 miles of Oroville.

Development of the Feather River

The Feather River—The Feather River will be the scene of the West's greatest water and power development during the next decade. At least four major projects, totaling nearly $2 billion, are in various stages of realization, and all head up at or near Oroville. This almost fantastic program will play a major role in the development of the Oroville area, as well as the county, and in fact, the entire state.

Pacific Gas & Electric Co.—Already underway is the Pacific Gas & Electric's program of developing four new power plants on the North Fork of the Feather. Workmen are now busy on the construction of the first of the facilities —the $35,000,000 Poe Power Project. This work is going on some 20 miles up the Feather River Highway from Oroville, and at its zenith will provide jobs for more than 1,000 men. The utility has federal power commission permits to construct three more power houses—one at Belden, one at Caribou (making 2 at this location) and another at Butt Valley.

Total cost of these four installations—which will make the Feather, in the words of the P.G.&E., the most "powerful" river in the world—is estimated at $140,000,000. The company hopes to extend the work over a period of years—providing construction type employment for more than 1,000 men for perhaps as long as 8 or 10 years. Oroville is the focal point for this entire program, and the local economy already is experiencing the benefits.

Feather River Project—Major development on the Feather—and indeed the biggest water project ever undertaken —is the state authorized Feather River Project. Five and a half miles upstream from the City of Oroville will be located the half billion dollar Oroville Dam—key feature in a plan to transport water as far south as the City of San Diego, with 1,800,000 acre feet allocated to users south of the Tehachapi mountains, according to the state engineer's final proposal. Just when the tremendous bulk of the gigantic dam structure will start to pierce the rugged canyon vista is in the hands of the California legislature.

Middle Fork Project—Another project possibility, this one sought by both the P.G.&E. and the Richvale Irrigation District, is located on the Middle Fork of the Feather River. Estimated expenditure here is $100,000,000.

South Fork Project—Still another development is the South Fork Project, proposed by the local Oroville-Wyandotte Irrigation District to increase its supply of farming and domestic water. The district proposes a project costing in excess of $30,000,000, and holds a federal power license.

The state engineer suggests that the State of California undertake the development of the South Fork for the local district as part of the mammoth Feather River Project.

Transportation—The Feather River Highway U.S. No. 40A, the only all year snow-free route across the mountains of Northern California. Western Pacific Railroad, main line; Southern Pacific Railroad, branch line; Sacramento Northern Railroad, branch line; Gibson Bus Lines; Pacific Greyhound Lines, transcontinental service; Oroville lateral of U. S. Highway 99E. 1,416 miles of county roads.

OROVILLE DISTRICT

The City of Oroville, county seat of Butte County, is the western gateway to the all-year Feather River Highway U. S. 40 Alternate and fabulous Feather River recreational region.

Location—472 highway miles north of Los Angeles, 157 highway miles northeast of San Francisco, 81 highway miles north of Sacramento, 153 highway miles northwest of Reno.

Topography, climate, rainfall—On the floor of the east edge of the central Sacramento Valley. Bounded on the east by the foothills of the Sierra Nevada and on the north and west by the Feather River. Valley is flat-rolling agricultural land. Climate is semi-tropical. Summer is tempered by downdraft breezes from mountain passes. Mean annual temperature 61.8° F. Average annual rainfall 37.90 inches. Air currents flowing down the Feather River canyon dispel fog. Altitude 175 feet.

Agriculture—Practically all major foods are grown in this district. Oroville is noted for producing the earliest navel oranges and processing more olives in this area than in any other region in the U. S. Other products are lemons, peaches, figs, prunes, melons, almonds, walnuts, apples, pears, berries, numerous small fruits, rice, wheat, barley, beans, peas and forage crops. U. S. government records show an average of 256 growing days per year.

Stock raising, dairying, poultry—Extensive cattle and sheep raising in the mountains east and north of Oroville. Large dairy herds and hogs in the lower valley areas west. Poultry and turkey raising in general throughout the district.

Industrial Sites and factory strategically located are available for both small and large industries. There is a stable supply of skilled and unskilled labor, many of whom

CHICAGO

are property owners living in the city or on small suburban acreages. Unlimited Opportunities exist in the Oroville area for further development.

Medical Service—13 physicians, 10 dentists, 3 optometrist, 1 oculist, 6 chiropractors, 1 chiropodist, 1 osteopaths, 3 veterinarians, 2 hospitals (Butte County Hospital and Oroville-Curran Hospitals); 7 rest homes, 1 clinic.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide
1956

Copyright, 1956, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. Th profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ⊙ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants, but were unsuccessful. First, two personals calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

circulation

THE TRUE VALUE of advertising is circulation consulted — "User Circulation."

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there is an average of three and one-half daily consultations for each book for three hundred and five days, therefore —
